Fulcrum Point

Workshop outline · BE04 · Governance, Finance and Ethics

Sustainable Procurement.

Does your supply chain meet the same Future-Fit standards you are working toward in your own operations? A live session on Future-Fit Break-Even Goal BE04: what the standard requires, where your organization stands, and what to do next.

For

Finance directors, CFOs, legal counsel, compliance teams, board members and executive leadership. Also public affairs, treasury, investment teams and procurement. No prior knowledge of the Benchmark is needed.

Format

Two hours forty-five minutes. Live virtual.

What it is for.

Every company depends on goods and services from suppliers and is accountable, with them, for the impact of producing and delivering those goods. The goal is to reduce, and in time eliminate, the negative impact of what the company buys.

The standard is Future-Fit Break-Even Goal BE04, "Procurement safeguards the pursuit of future-fitness". In the words of the Benchmark: "A Future-Fit Business seeks to reduce – and eventually eliminate – any negative environmental and social impact caused by the goods and services it depends upon, by continuously striving to anticipate, avoid and address issue-specific hotspots in its supply chains." The session shows what that requires, how progress is measured on the scale from 0 to 100 percent, and what your team has to do to find out where the organization stands.

It is not a complete benchmarking exercise. A real progress score needs data from every site, and more time than one session allows. Participants leave knowing exactly how to do it.

The Future-Fit Business Benchmark is published by the Future-Fit Foundation under a Creative Commons Attribution-ShareAlike 4.0 license. Goal statements are quoted from Release 2.2. Lorne Cousins is a Future-Fit Accredited Advisor.

What you leave with.

- A precise understanding of what BE04 requires, and why the standard is higher than most organizations meet today
- The ability to tell which approaches count under the Benchmark and which do not
- A worked example of the progress score calculation
- A Fitness Snapshot: a directional estimate of where your organization stands on the scale from 0 to 100 percent
- A Game Plan: the questions to ask, the data to gather and the conversations to have, so that real benchmarking can follow
- A Personal Action Plan: three named, time-bound actions
- After the session: a 30-day follow-up pack of four weekly activities

- After the session: the Future-Fit Action Guide for BE04 and a reading list

Why it matters.

- A company is only as sustainable as its weakest supplier
- These goals most often show the gap between stated values and actual practice
- A business that meets its environmental goals while avoiding tax or lobbying against progress is not credible

Format.

Length	Two hours forty-five minutes
Mode	Live virtual
For	Finance directors, CFOs, legal counsel, compliance teams, board members and executive leadership. Also public affairs, treasury, investment teams and procurement. No prior knowledge of the Benchmark is needed.
Method	Short inputs from Lorne on the goal and the standard; A worked example of the progress score; The Fitness Snapshot, done on your own organization; The Game Plan and the Personal Action Plan, written in the session

Your speaker.

Lorne Michael Cousins

Senior Fellow and Council Director, The Conference Board, Asia. Founder, Fulcrum Point.
